Eston Development Worth a Look

by Marcus Watanabe

“Ideal residential developments combine twenty-first-century convenience with small-town charm.” That is the philosophy found in the brochure of the Homestead at Eston, a recently completed housing development just outside the town of Eston. — [1] —.

The community has wide streets, sidewalks, and three small parks surrounding a central square. The square features a café, a restaurant, and several shops. In the northeast corner of the development, there is an activity complex that includes a gym, theater, and swimming pool. — [2] —. “This means you never have to leave the

community unless you want to,” said Marjorie Solomon, sales director. “Once you visit, you’ll realize why so many people are purchasing homes here.”

While never leaving your development struck me as an odd idea, the Homestead planners deserve praise for creating a very attractive place to live. — [3] —. The planners have obviously prioritized the environment. Natural habitats have been carefully preserved, and homes and other structures have been designed to conserve water and energy.

Model homes are currently available for tours. — [4] —. Open houses take place 12:30–4:00 P.M. Saturdays and Sundays. Alternatively, appointments can be made by calling 856-555-0129.

Elektroproof Repair

I spilled tea on the keyboard of my faithful old laptop, and while I dried the exterior rather quickly, I was afraid the internal components might have been ruined. Luckily for me, Elektroproof Repair came to the rescue! After booking my consultation on the Web site, I waited anxiously for a reply. Within an hour, I got an e-mail directly from the owner. Although the time slot I had requested was not available, when I responded to his e-mail to express how urgently I needed my laptop, the owner said they had an unexpected cancellation and asked if I could bring it in that very morning, which I did. Since my computer was not turned on at the time of the accident, an Elektroproof Repair technician was able to dry the computer's insides and prevent damage to the hard drive or internal circuits. Other than a new battery, no other part was needed, and Elektroproof Repair had my laptop fully functional and back in my hands within 24 hours.

Subject: Order TS1058293

Dear Ms. Rivera,

I am following up on the order you placed with us on April 23. We have only one guitar of the model you want in stock. It was used as a display sample on the floor of our salesroom here in Santa Barbara. This means it is out of the box and has been played by customers browsing the store. Our in-house luthier has thoroughly inspected the guitar, and it is still in excellent condition. There are no scratches, scuffs, or dents on it whatsoever. Because you purchased the instrument on the understanding that it was brand new, we want to offer you two options:

1. If you do not want the floor model, you may cancel the order and receive an immediate full refund.
2. If you would like the floor model, we will ship it immediately and offer you a 10 percent discount off the original retail price.

If you choose the latter, we will make sure the guitar is delivered to your local store in time for your first lesson there tomorrow. We apologize for the inconvenience.

Sincerely,
Krista Towers
